1. All pending claims 12-22 are allowed. Claims 12 and 16 are independent.

2. The following is an examiner's statement of reasons for allowance:

Claims 12-22 were allowed in the previous Office Action dated December 14, 2005. The claims have been amended to more particularly point and distinctly claim the subject matter which the Applicants regard as their invention, as stated in Applicants' Remarks filed March 3, 2006. The reasons for allowance are still valid for the amended claims and after the updated search. The reasons are repeated below.

Claims 12-15 and 21 are allowable over the prior art of record because the prior art does not teach a chip comprising a processor that uses images of a black region to remove flare from at least one feedback signal, and uses images of a light region to provide at least one feedback signal indicating color channel intensity, the black and light regions being located on a scan head body positioned in an optical scanner.

Claim 16 is a method claim corresponding to apparatus claim 12. Claim 16 is allowable for the same reason as given for claim 12.

Claims 17-20 and 22 depend on claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
